ZITTACLEAN

Le micro film protecteur formé lors de son application, fera perler l'eau sur le verre afin d'en faciliter l'entretien.

Il est recommandé de passer la raclette après chaque usage.

The micro protective layer formed during its application will make the water bead along the glass for easy maintenance.

We recommend cleaning the door with the squeegee after each use.

Ne jamais utiliser de poudre ou de tampon à récurer. Il suffit de nettoyer la porte avec une solution d'eau et vinaigre, 1 once vinaigre pour 5 onces d'eau. Vous pouvez utiliser un détergent doux mais aucun autre produit à base d'ammoniaque cela pourrait endommager la surface de la vitre.

THE MAINTENANCE OF YOUR SHOWER
